Year 7 Knowledge Organiser – Monarchy, Power and Control

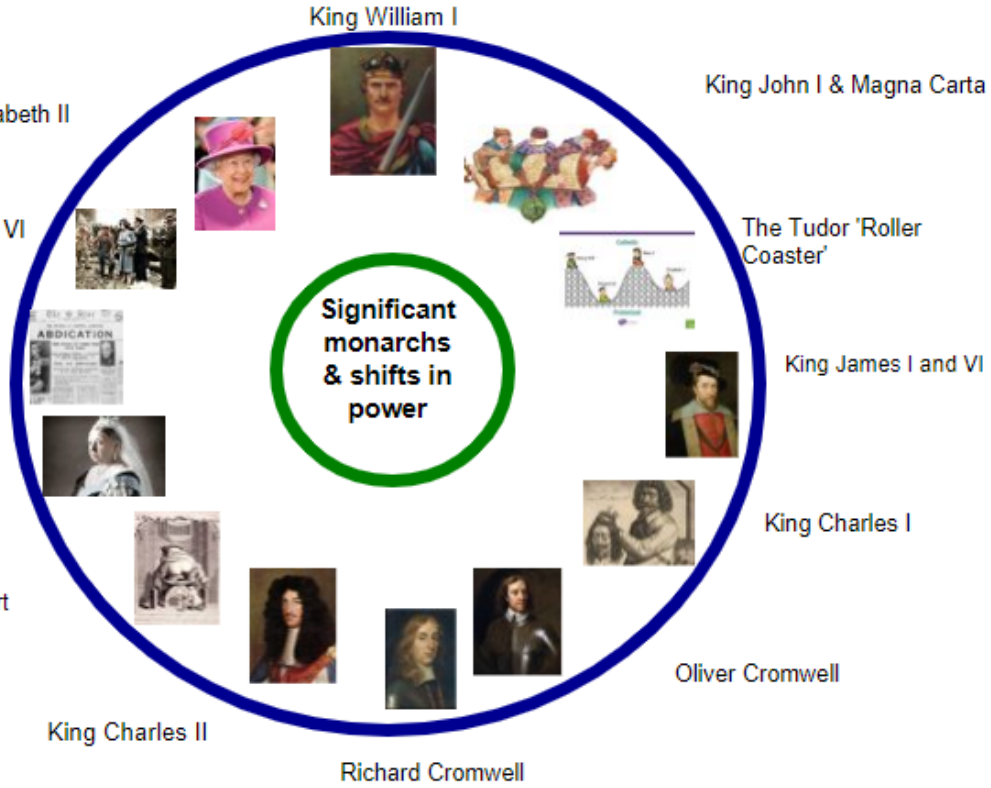
ASPIRE AND ACHIEVE

I will be able to know

- You will know why 1066 was a significant year and the impact of William I on England.
- You will know the impact of Henry VIII's decision to break with Rome and identify why historians call the Tudor period a 'rollercoaster'.
- You will consider how and why a King lost his head and how the monarchy changed in the 17th century by studying the English Civil war and its consequences.
- You will identify that the power starts to change as the role of Prime Minister develops in the 18th century.
- You will examine interpretations of Queen Victoria and the amount of power she held as a female monarch in the 19th century.
- You will investigate 20th century monarchs and their significance during times of national crisis; George V during World War Two and Edward VIII's abdication. You will think about the role of our current monarch.

Key skills – change and continuity over time and the significance of each monarch's reign.

How would you judge the shift in power and control since 1066?



Key question – how has power and control shifted from 1066 to the present day?
