Surface Development – An extension of the word net. Turning a 3D object into a 2D net to be made.
Brand name – A manufacturers name, often with a slogan.

Packaging – A method to encase a product displaying key information.

Score – A method of using the sharp edge of a pair of scissors to make a crisp fold.

Barcode – Series of black and white stripes that hold data like price and stock numbers.

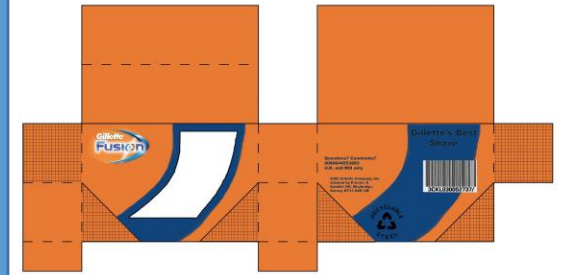

Packaging Symbols – Icons that reference recycling/disposal recommendations and safety factors.

Key Information – Manufacturing contact details, address, email.

Tabs - An area of the net that is folded and glue added to join sides.

CAD – Computer Aided Design.

3D printer: a machine allowing the creation of a physical object from a three-dimensional digital model, typically by laying down many thin layers of a material in succession.

■ Glue
 — Cut
 - - Score and fold
